New Business:

Karla Boyle: Would like to discuss bringing back the themed runs.

- States there was better attendance at runs..
- As a reminder:
 - a themed run had participants contributing money to that run and got a prize for completing.
 - Points: each run was worth 5 points.
 - The host of the run would do 5 questions for points or 5 things about the run.
- For now: host can have an optional theme if they want. We can introduce that.

Karla Boyle would like to Make a motion that the host of an identified fun run for that month has the option to have a theme for the particular run. In addition, it will be the hosts responsibility to promote the theme as well as manage any logistics connected to the theme and run.

Jody Sullivan seconds the motion that the host of an identified fun run for that month has the option to have a theme for the particular run. In addition, it will be the hosts responsibility to promote the theme as well as manage any logistics connected to the theme and run.
